

FAUQUIER BANK - WARRENTON, VA

Located in the Town of Warrenton, this is the latest branch opened by The Fauquier Bank. This new branch replaces an older branch and houses additional bank support offices. It is one of the first LEED certified buildings constructed in the Town of Warrenton and Fauquier County. Carson/ Ashley provided a variety of services to the bank and the architect throughout the entire project. Extra steps were required in order for the bank to provide drive-thru lanes. Carson/Ashley prepared a Special Use Permit for the bank and assisted the bank throughout the approval process.
