

## LINWEAVER TECHNOLOGY CENTER

Located in the Town of Warrenton, Lineweaver Technology Center features a convenient and friendly business location along Walker Drive and abutting Route 15, 17, 29. Surrounded by residential areas on three sides it was imperative that the sites and buildings compliment this environment to create a park-like atmosphere. The Center consists of nine sites that house diverse companies in industries from insurance to defense contracting. Our firm prepared the original subdivision infrastructure design to create this Town-sponsored industrial development and Carson, Ashley & Associates continues to provide a full range of surveying, civil engineering and land planning to existing companies within the Center and for new companies planning to locate to Warrenton.
